## Purposes

Essential **Enabled**

When browsing websites, data about you may be stored or accessed using cookies and similar technologies. Cookies are essential for the website's basic functionality and may serve other purposes as well. You have the choice to disable specific types of cookies, but this could affect your browsing experience. Important notice: To ensure basic website functionality, essential cookies are required. Please note that disabling essential cookies is not permitted. Thank you for your cooperation.

Cookie	Provider	Purpose	Expiry
PHP_SESSID	tekchoiceelectronics.com	The PHPSESSID cookie, a product of PHP, enables websites to retain serialized status information. It plays a crucial role in establishing and maintaining user sessions by passing state data through a temporary cookie, referred to as a session cookie. These cookies are designed to remain on your computer only during your browsing session until you close your browser window.	Up to 3 years
TekChoice_Electronics-#	tekchoiceelectronics.com	The cookie utilized by TekChoice Electronics serves as a tool for storing information and maintaining the user's session. It retains essential data including currency, language preference, customer ID, and other pertinent details crucial for the smooth operation of the online store.	Up to 3 years

Personalized Advertising **Enabled**

These are cookies that collect information about the advertisements shown to users of the website. They

can be anonymous, if they only collect information about the advertising spaces shown without identifying the user, or personalised, if they collect personal information about the user of the shop by a third party, for the personalisation of these advertising spaces.

Cookie	Provider	Purpose	Expiry
fb	<a href="#">Facebook</a>	Cookies are small pieces of text used to store information on web browsers. Cookies are used to store and receive identifiers and other information on computers, phones and other devices. Other technologies, including data that we store on your web browser or device, identifiers associated with your device and other software, are used for similar purposes. In this policy, we refer to all of these technologies as “cookies”.	Up to 3 years
tiktok	<a href="#">TikTok</a>	We and our service providers and business partners use cookies and other similar technologies (e.g., web beacons, flash cookies, etc.) (“Cookies”) to automatically collect information, measure and analyze how you use the Platform, including which pages you view most often and how you interact with content, enhance your experience using the Platform, improve the Platform, provide you with advertising, and measure the effectiveness of advertisements and other content. We and our partners also use Cookies to promote the Platform on other platforms and websites. Cookies enable the Platform to provide certain features and functionality. Web beacons are very small images or small pieces of data embedded in images, also known as “pixel tags” or “clear GIFs,” that can recognize Cookies, the time and date a page is viewed, a description of the page where the pixel tag is placed, and similar information from your computer or device.	Up to 3 years
x	<a href="#">X</a>	Cookies and similar technologies like pixels and local storage provide you with a better, faster, and safer experience on X. Cookies are also used to operate our services, which include our websites, applications, APIs, pixels, embeds, and email communications. Specifically, X uses these technologies.	Up to 3 years

yt	<a href="#">Youtube</a>	We adhere to Google's privacy principles, which means we build products that are private by design and are thoughtful about the data we use, how we use it, and how we protect it. Any data we collect to customize our services for users, including personalized recommendations, search results that help them more easily discover creators they love, content that meets their needs, and serving relevant ads are all controlled by a user within their privacy settings. This allows users to select what is right for them, so they are in control of the personal information shared with Google - including reviewing their data, downloading and moving it to another service, or deleting it entirely whenever they want. Google's privacy policies keep users informed about what data we collect, how it's used, and why. And we never sell a user's personal information to anyone.	Up to 3 years
